Rupert's personal sporting ambition, and high demand on himself, is reflected in the professionalism of the entire Fun & Pro team.

## FUN & PRO: FUN WITH PROFESSIONALS

**FUN** for us means play, fun and action.

A motto that is above all important for newcomers to skiing and snowboarding. Because those who are fanatical about skiing and snowboarding, never really get the hang of it. Moreover, side- and night events are fixed programme points with FUN & PRO: zorbing, snow-biking, tobogganing, torchlight hikes, ...

**PRO** represents the professionalism of our courses and training carried out according to the worldwide acknowledged Austrian skiing schools course- and training plan: classic skiing from beginners to sovereign deep-snow specialists, as well as exact carving, trendy slope styles and New School skiing for courageous freaks. Snowboarding from Basic I and II, to technique- and racing courses in the alpine and freestyle disciplines. As a BURTON Partner and METHOD CENTER, we are additionally distinguished as internationally acknowledged professionals.

The same high- and professional-quality standards are also the mark of our shops for hire and service in the best and most central locations.

## Ski boot fitting

### TUNING FOR YOUR FEET

A good fitting boot is the most important thing for skiers. Only if the ski boots fit properly can you enjoy your day's skiing.

The revolutionary foot analysis unit from **BootDoc** inspires all along the line. From the foot scan you get a plantar view of the feet as well as information about the length, width, heel width and boot size. The individuality of the feet is portrayed perfectly and thus the fundamental requirement for selecting a suitable boot or inlay is fulfilled.

### NO BOOT PINCH

Our new ultra-cam boot fitting unit processes pressure points accurately. Soles and cushions are customised, inlays fitted. The interior boots are heated and formed individually to suit the feet. The outer casing can be stretched, or if necessary even milled too.

Supported by the new unit we offer the whole range. Only the customer's final opinion counts - a very contented smile and a positive „fits like a glove“ comment. That's FUN & PRO.
